WHY CAMSHELVING?

The True Cost of Ownership:
Camshelving will never rust or corrode. It has built in modular flexibility. Add, remove, and accessorize as much or as little throughout the years as needed. You'll buy it once and use it forever. That's one less thing for you to worry about.

Measurable Results from Day One:
Camshelving will change how you see storage. You'll increase fully accessible storage space, in the same space. It's ridiculously easy to keep clean. And you can add or move shelves whenever and wherever needed.

Install Anywhere:
Camshelving can handle a lifetime of cold, moisture, acidic ingredients, humidity, and constant cleaning. It's completely at home in walk-in coolers, freezers, dry storage areas, kitchens, and wet dish rooms.

BENEFITS OF CAMSHELVING:

Cleaning Made Simple
See a spill or a splash? Remove a single shelf plate and quickly run it through the dishwasher. Wipe down a post or traverse. Or easily remove one shelf at a time for deep cleaning.

Shelf plates offer extra insurance with antimicrobial Camguard, helping inhibit the daily growth of harmful bacteria and microbes.

More Storage in the with the Same Space
Unlock up to 50.8mm of additional usable storage space with every shared unit in a continuous storage line, all without compromising weight bearing capacity. Fewer posts not only maximize space but are also budget-friendly, embodying a smart, economical choice. Shared posts usher in a high level of flexibility.

Shelves can be individually set at varying levels to accommodate different product sizes and heights. Designed for growth, extra shelves can be added anytime as needed, ensuring your storage setup evolves seamlessly with your demands.

Nothing in Your Way
Camshelving's unique corner-connected design introduces spacious openness. Clear visibility and access to every product on each shelf in your storage areas is a refreshing change.

Open corners not only shed light on your inventory but simplify FIFO, contributing to less food waste. In addition, they also facilitate quicker, more accurate inventory counts and promote food safety by leaving no room for hidden corners.
